

Healthy Building

At rk MILES we are committed to helping you lessen your impact on the environment with environmentally-preferable materials for your projects, consultation services, and convenient recycling services.

We are dedicated to incorporating sustainable practices into our business operations through varied resources both internally & externally. We strive to utilize and provide environmentally friendly products and conserve natural resources including energy and water. We take pride in educating our customers and our employees on green products and practices, and work to meet the guidelines set by the Vermont Business Environmental Partnership.
