Boise Cascade
Engineered Wood Products

SPECIFICATION OF ENGINEERED WOOD PRODUCTS

- › This course is designed to teach participants how to properly detail and specify EWP products.

Presented by Dave Badeau, EWP Department Manager - Westfield, MA

Dave grew up in the building and restoration business that his family owned and operated. He earned a B.S. in Mechanical Engineering from the University of Connecticut and ran his own construction company before joining Boise Cascade in 2015 as an Engineered Wood Technical Representative. He provided design solutions and technical sales assistance to customers throughout New England and New York. In 2016, Dave took on his current role as Engineered Wood Department Manager for Boise Cascade's Westfield, MA distribution location.

4PM - 5PM

MARVIN®

EXTERIOR GLASS DOORS: IMPROVE FUNCTION, PERFORMANCE AND WELL-BEING IN RESIDENTIAL DESIGN

- › The use of exterior glass doors changes the experience of the homeowner by contributing to healthier, more appealing spaces and strengthening the connection between indoors and out. This course looks at the variety of exterior glass doors available, their design characteristics, performance considerations, and how they can impact well-being for residential customers.

Presented by Jim Pelowski

Jim Pelowski is a Senior Regional Manager of Architectural Sales for Marvin Windows and Doors. Jim is responsible for leading the architectural sales team in Northern New England and New York State. His primary focus is to ensure the architectural/design community is supported by team members who can provide window and door solutions for both residential and commercial projects.
